www.innovaart.com

Now available from Innova Art, a new range of fine art cards for printing your own professional looking photo cards, invites, announcements, holiday greetings, and more. The card's velvety smooth stock, is printable on both sides, supplied pre-scored and with matching envelopes. Innova Art's award-winning expertise in making digital papers for fine art printing, together with the card's pleasing natural white tone, mean that excellent image quality is guaranteed. The card contains no optical brighteners (OBAs), which makes it both the perfect partner for cherished images and environmentally friendly too. The range is compatible with both pigment and dye based inks.

Innova Art Cards are available in two popular sizes, large and small (dimensions below). These cards come packed in either a professional box of 100 cards and envelopes or bulk cartons for high volume users.

Innova Art Cards puts the printing of professional quality cards into the hands of every craft enthusiast.
